

Sound Attenuation Measures

Party Wall Assembly

Everyone wants a little peace and quiet when they're at home, and with StreetSide's party wall assemblies we go above and beyond the Alberta Building Code requirement to ensure you feel at home.

Single Layer Gypsum TYPICAL PARTY WALL

- A** 5/8" Gypsum Board
- B** 2"X4" Wood Studs, Staggered (refer to structural)
- C** R12 Batt Insulation
- D** 1" Air Space
- E** R12 Batt Insulation
- F** 2"X4" Wood Studs, Staggered (refer to structural)
- G** 5/8" Gypsum Board (caulk top + bottom plates with sealant)

Renderings and assembly is an artists representation only. Actual assembly may vary per home and community. Please speak with your sales representative to learn more. StreetSide reserves the right to make modifications and changes without notice. E&OE
